

L-Rheumo for Rheumatism

Purely Vegetable. No Opium, Morphine, Cocaine
Nor Any Habit-Forming Drug

A Physician's Prescription

We have seen this remedy tried for the past four years. It has been prescribed by Physicians and been sold at a number of drug stores simply as a filled prescription and we have yet to see the first case that was not relieved by it in a very few days and most all cases by only a few doses. See testimonial of Mrs. Mattie Robinson, also that of Mr. Pratt and Esq. Huntley, who took only part of a bottle and was entirely cured. So great confidence have we in L-Rheumo that we have added the money-back feature to all our advertisements, that is: after taking three bottles, if the pain is not relieved and you are not better in every respect, bring back the bottles and we will cheerfully refund your money.

In taking L-Rheumo the directions should be carefully followed, that is: Take one teaspoonful at first, gradually increase to two as indicated by the effect on the bowels; which should act freely at least three times a day. Notice what awful discharges follow the first few doses. Then begin to increase the dose, not jump to two teaspoonfuls at once, but go up gradually to one and one-fourth then one and one-half and on up in that way getting best results by increasing gradually. While taking L-Rheumo the diet, while it should be liberal, should be somewhat restricted, namely: Cut out all pork, fats, beef, rich pastries, puddings,

etc. live on eggs, buttermilk, bakers' bread, etc. and drink all the clear water possible, drink no alcoholic drinks, whiskey, beer, wine, etc. If you get relief, tell your friends, if not tell us.

L-Rheumo is a scientific compound of vegetable origin, contains no opium, morphine, cocaine, nor any habit-forming drugs, requires no purgative nor laxative to follow containing these in sufficient quantity.

L-Rheumo relieves rheumatism, first by its pain-relieving powers—second, by elimination—that is, by its action on the liver, kidneys and bowels, carrying off poisons that have accumulated in the system from over-eating and drinking.

L-Rheumo is the prescription of an old physician of a Georgia city who failed to cure his rheumatism patients with the ordinary remedies, and in looking for something better found that by combining certain drugs he got results. This he carried further, making experiments until he was certain he had the very best remedy. After giving this for some twenty years, and feeling that by reason of age he must shortly give up practice, and conscious that he must not die without first giving to suffering humanity this wonderful remedy, he confided his secret to a relative who is druggist. The young man with the assistance of a Physician friend of his, made still more improvements, with the result that we claim L-

Rheumo to be the greatest remedy on the market today for all the different forms of that most dreaded of all diseases, Rheumatism.

The best medical writers of the day classify Rheumatism as Acute, Subacute, Articular, or rheumatism of the joints, Myalgia, or Muscular Rheumatism, Lumbago or the common Backache, pains in side, chest, etc., or Pleurodynia; all, however, are Rheumatism and come from practically the same cause: Poisonous acids in the blood.

The same writers also advise the use of the principal ingredients in L-Rheumo for all forms of Rheumatism.

LISTEN!

"This is to certify that I bought two bottles of your Rheumatism Remedy, (L-Rheumo), from you and took it and am now able to do my work.

"Before taking your medicine (L-Rheumo), I had suffered for several years with Rheumatism and Indigestion.

"I am now feeling like a new person, having gained at least twenty-five pounds.

"I think your medicine, (L-Rheumo,) a God-send to humanity."

(Mrs.) MATTIE ROBINSON,
R. F. D. 2, Morven, N. C.

This gentleman lives in the town where L-Rheumo is made and where Dr. Williams has been giving it to Rheumatism sufferers through physicians for years.

"I suffered for some years with Muscular Rheumatism, was treated by different Physicians, but found no relief. Then I went to Patent Medicines and tried them out thoroughly, still got no relief. At this time was induced to try your Remedy, (L-Rheumo,) and after taking it for three days the pain was relieved, my Rheumatism was gone. "Now, one year after taking it, I feel well and strong, only took one bottle.

"I advise everyone suffering with Rheumatism to take it, (L-Rheumo), and feel certain they will be cured.

W. E. PRATT,
With F. P. Pratt and Co., Morven, N. C.

Regained the Use of His Arm

Charlotte, N. C., Sept. 1st, 1916.
Chapman-Alexander Laboratories,
Charlotte, N. C.

Gentlemen:

I have been a constant sufferer from Rheumatism for the past six years, my right arm was so badly affected at times that I could not use it and consequently lost a great deal of time from my work. During my four years residence in New York was treated by several specialists with only temporary relief and on moving to Charlotte two years ago I had several physicians treat me and was advised to take the baths at the Sanatorium which gave me only passing relief, then after almost giving up hope a friend of mine gave me a bottle of L-Rheumo to try and while I had no faith in it, I wanted to please my friend and so about the 10th of July I began taking L-Rheumo

and one six ounce-bottle made a new man of me not only giving me back the use of my arm but improved my general health to such an extent that I gladly recommended this medicine to all the people.

Yours gratefully,
A. LOUISA,
904 West Second St., Charlotte, N. C.

A Prominent Cotton Buyer and Justice of the Peace Affirms

"After suffering from Rheumatism for about two years I was advised to try your remedy (L-Rheumo).

"After taking it for a few days I was entirely relieved of pain and now feel that I am well, but still have almost one-half of the first bottle left.

"I began taking it (L-Rheumo) about July 15th, 1916, a little more than a month ago."
